Japanese	<i>conversational</i>

WORK

University of Michigan

Dec 2018 – Present

UX Researcher

Research on the feasibility of a smartwatch intervention on age 8–10 students who are suffering from anger management issues in school environments. Plan to further validate the study of intervention that could potentially keep track of students' behaviors and encourage self-management skills.

Day2Life Inc.

May 2018 – July 2018

UI/UX Designer

Designed prototypes and wireframes of the landing websites using HTML/CSS and JavaScript. Created dashboards and statistics using MVC structure from MySQL database for the clients through Spring Boot and Eclipse. Localized web and mobile applications by translating features using OneSkyApp.

EDUCATION

University of Michigan

2015 – 2019

BS in Information
Minor in Applied Statistics

RESEARCH

History of Internet Development

2017 – 2018

Constructed biography and cross-references for each interview regarding the Internet development history project funded by the National Science Foundation. Assembled and reviewed data regarding the accomplishments of the interviewees.

LEADERSHIP

Student Organization for Data Analytics

2017 – Present

Vice President

Spoon University

2017 – Present
